

The Jesuit Conference of South Asia/JEASA engaged the Jesuit Research and Development Society (JRDS) to conduct a comprehensive assessment of Jesuit schools in India, Sri Lanka, and Nepal from August 2022 to October 2022. JRDS executed the study, involving a substantial sample size of 16,207 participants, including students, teachers, PTA representatives, and alumni, from 250 schools. This rigorous assessment aimed to evaluate various aspects of the educational experience and outcomes in Jesuit institutions across the three countries. The data collected provided valuable insights into the strengths and areas for improvement in Jesuit education, contributing to the ongoing efforts to enhance educational quality and impact in the region. The study was completed successfully in October 2022.

Place: New Delhi

Date: December 20, 2022
